flat batteries while travelling

Rock On, Talk On

VENTURI MINI

Plug and Play Bluetooth Handsfree Phone & Music Streaming Device

The **Venturi Mini** is a revolutionary new product combining music, phone and MP3 functionality and interfacing with your existing car stereo system.

Using Bluetooth® technology to connect with your phone, the **Venturi Mini** can seamlessly stream both your music collection, and voice phone calls through your car's stereo. Your radio will even display the Caller ID and other call information on RDS equipped vehicles.

The **Venturi Mini** is a stylish and advanced design solution that features a smart user interface for easy operation and comprehensive features.

If you're constantly on the go, or use company, lease or rental vehicles, then the **Venturi Mini** is an installation free option for you.

You can connect up to four separate Bluetooth® devices and even connect your iPod or MP3 player via direct cable connection.
